Profile: Square Edge or T&G

Surface: Rough sawn

Character: Nail holes, knots, ferrous stains, circular kerf marks

Applications: Walls and ceilings

Story:

Our barnboard comes from agricultural structures across the east coast and into the midwest, and it reflects the broad array of species that you'd expect to find with such a broad geographical range. This material features the hard-earned patina you only get after withstanding a century of sun, wind, rain, and everything in between.
