

Mushroom Board

Species: Hemlock, Cypress
Thickness: 7/8" or 1"
Widths: Available in uniform or variable widths from 3 - 7"
Lengths: Random lengths from 4' - 15'
Profile: Square Edge or T&G
Surface: Original
Character: Pronounced ridges and furrows
Applications: Walls and ceilings

Story:

This is some special stuff, all salvaged from mushroom farms in Pennsylvania. Over time, enzymes in the mushroom soil eat away at the hemlock and cypress beds, creating a deeply contoured surface. We pressure wash and wire brush the once buried boards, revealing rich brown wood with a sculpted surface. Light and shadow play well off this material, making it ideal for a dynamic accent wall.
